

Laptop Holder

Assembly Guide

Branch

The new way of working you've been waiting for.

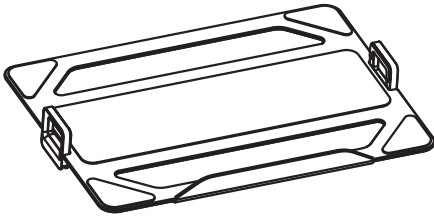

Scan here for a digital copy
of your assembly guide.

Caution

- Make sure to read the entire manual before installation.
- Make sure the desktop can bear the weight of the mount and monitor before installation.
- Use the supporting tools and the help of a friend when installing.
- Every six months, please make sure all bolts, screws, and knobs are fully tightened to ensure stability.
- If any parts are missing, broken, damaged, or worn, stop use of the product until repairs are made using Branch-Authorized parts.
- Wait until your Laptop Holder is attached before making any ergonomic adjustments, such as tilt, angle, and height as the Monitor Arm needs to be balanced with the laptop's weight.
- Avoid using the laptop while it's attached to the Laptop Holder.
- Failure to follow these warnings could result in serious injury.
- Keep this manual for future reference.

Components

Clamp Plate (x1)

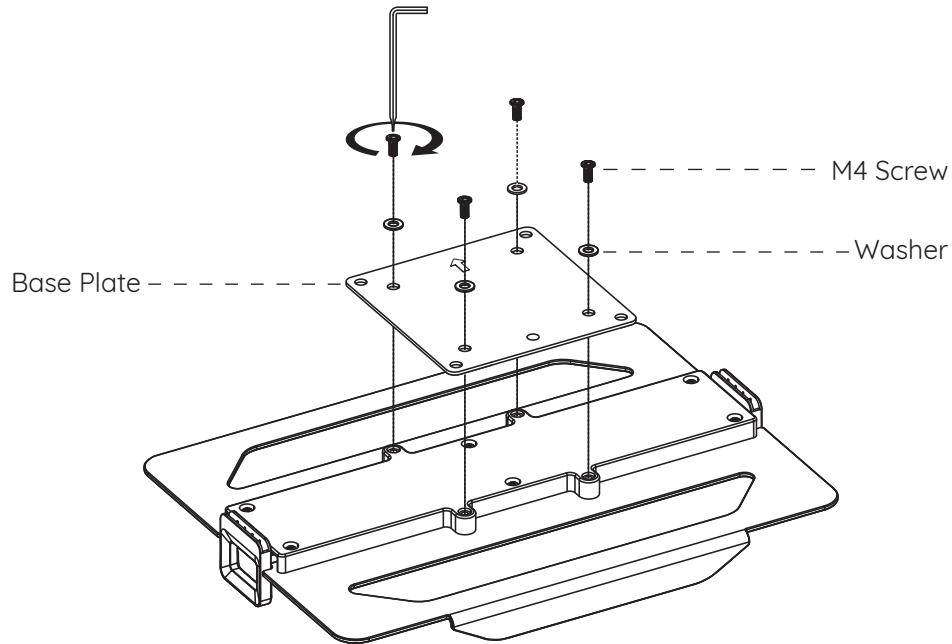

M4x8 (x4)

Washer (x4)

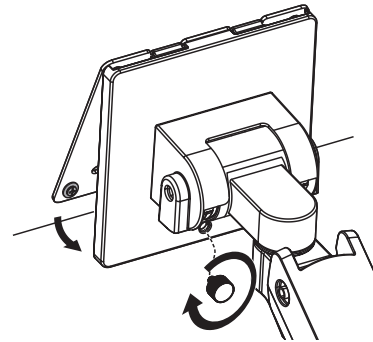

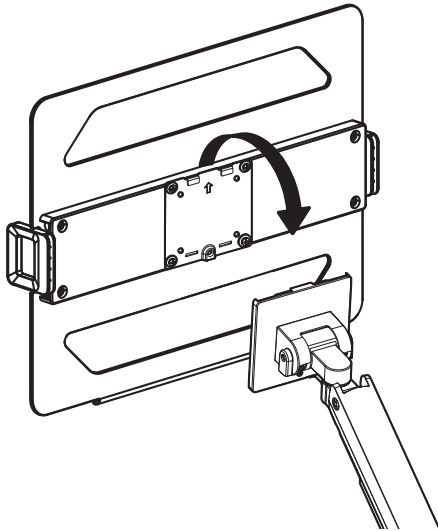

1

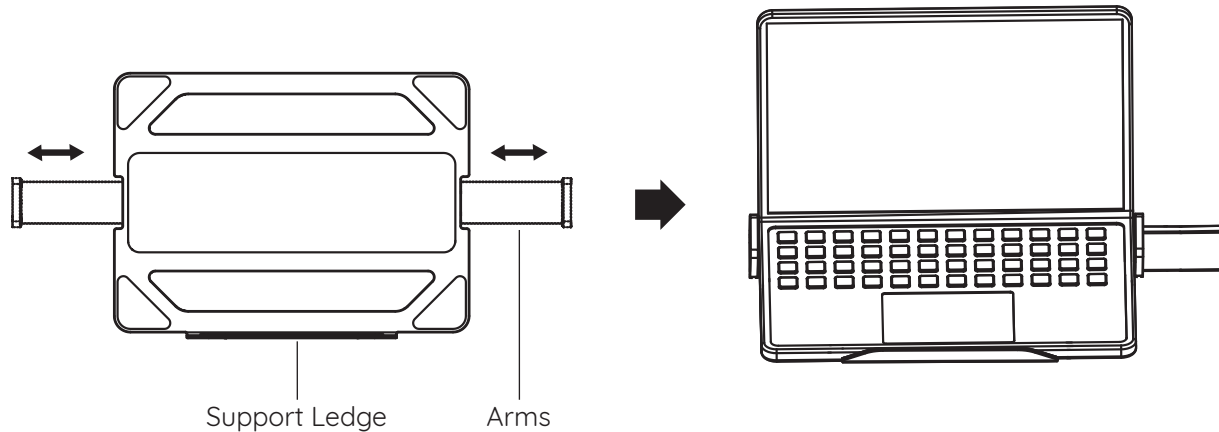

Align the **Base Plate** of the **Monitor Connector** to the back of the **Clamp Plate**, ensuring the arrow is pointing upward. Secure using the included **M4 Screws** (x4) and **Washers** (x4). Tighten all screws using the flat-head end of the included **4mm Allen Key**, and make sure the **Base Plate** is firmly fastened before proceeding.

2

Carefully align the **Laptop Holder** so that the **Base Plate** slots into the **Monitor Connector**. Once positioned, reinsert the **Thumb Screw** into the back of the **Monitor Plate** and tighten securely to ensure a stable connection.

3

To attach your laptop to the **Laptop Holder**, spread the **Arms** (x2) wide enough to fit the laptop onto the plate. Rest the bottom edge of the laptop against the **Support Ledge**, then release the arms. The arms will automatically tighten around the device to hold it in place. If using a Branch Monitor Arm, re-balance the monitor arm as shown in the User Guide, then adjust your laptop to your preferred position. For other brands, refer to your manufacturer's instructions.

FAQ

Category	Answer
What is the weight Capacity for the Laptop Holder?	The arm can support laptops weighing 4.4lbs to 19.8lbs (2-9kg) when using a compatible laptop tray or mount.

All Done!

Go ahead, try it out. You may experience what we call an “ahhh” sensation. That’s completely normal. You’re now well equipped for whatever the workday throws at you.

Now, don’t be shy. Show us how it looks!
